

Release no. 3/2017

## Company announcement

# Columbus upgrades earnings expectations for 2016

Columbus A/S upgrades expectations to EBITDA (before share-based payment) for 2016 from the level of DKK 124m to the level of DKK 144m. Other announced expectations for 2016 are maintained.

"We experienced a great final sprint with a high activity level in several of our operational units, including primarily US, UK and Denmark, where the utilization of resources in the services business was

very high. I am excited that we - with this great final sprint - are able to deliver a good result for the year while having started the execution of our 2020 strategy well", says Thomas Honoré, CEO & President.
