Statutory report on the recommendations from the Committee on Corporate Governance.

This statutory report constitutes part of the management's report to the Annual Report for Columbus A/S. This statutory report covers the fiscal year 1 January 2014 to 31 December 2014.

Columbus' management model and organization are adapted on an ongoing basis to ensure we are equipped to manage to our utmost all obligations to shareholders, customers, employees, authorities, as well as other interested parties. In this process, Columbus uses the corporate governance recommendations from NASDAQ Copenhagen A/S as an important source of inspiration. The recommendations can be found at www.corporategovernance.dk.

The Board of Directors is fundamentally in agreement with the Danish Recommendations on Corporate Governance as adopted by NASDAQ Copenhagen in its Rules for Issuers of Shares. Columbus endeavors to follow the relevant recommendations for the Company, which support the business and ensure value for the Company's interested parties.

This report is not covered by the auditor's remarks about the management's report.

Shareholders

The communication between Columbus and shareholders primarily takes place via company announcements, conference calls after publication of financial statements and at the company's annual General Meeting. The Company's website is constantly updated with published information. Columbus' shareholders may subscribe to Columbus' e-mail service and receive company announcements, interim management statements, interim reports and annual reports as well as other news via e-mail.

The General Meeting has the final authority over the Company. The Board of Directors emphasize that the shareholders are given detailed information and an adequate basis for the decisions to be made by the General Meeting. The date for the General Meeting is announced in the Company's financial calendar. Notice of the General Meeting occurs electronically with at least three weeks' and at the most, five weeks' notice. Votes by proxy allow shareholders to consider each individual item on the agenda. The Board of Directors encourages shareholders to ask questions at the General Meeting, and shareholders may submit proposals that are requested to be handled at the General Meeting before a given deadline.

Resolutions to amend the Articles of Association requires that at least half of the share capital is represented at the General Meeting, and the resolutions must be approved by at least 2/3 of the votes cast and 2/3 of the registered voting share capital. Proposals presented or recommended by the Board of Directors may, however, always be passed with at least 2/3 of both the votes cast and the voting share capital represented, regardless of the amount of the share capital represented. If less than 50% of the share capital is represented at the General Meeting but the resolution has been passed with 2/3 of both the votes cast and the registered voting share capital represented, a new General Meeting must be called within three weeks, where the resolution may be passed with 2/3 of both the votes cast and the registered voting share capital represented, irrespective of whether 50% of the share capital is represented.

However, according to the Articles of Association, general meetings can be held electronically when the Board of Directors finds it appropriate and technically feasible.</p>
<p>1.2.2. <p>1.3. Takeover bids</p>			
<p>1.3.1. The Committee recommends that the company set up contingency procedures in the event of takeover bids from the time that the board of directors has reason to believe that a takeover bid will be made. According to such contingency procedures, the board of directors should not without the acceptance of the general meeting, attempt to counter the takeover bid by making decisions which in reality prevent the shareholders from deciding on the takeover bid themselves.</p>		X	<p>If a third party takeover bid is made public the Board of Directors will respond to this in accordance to legislation and the shareholders will be involved through the general meeting. Thus, the Board of Directors has decided not to set up contingency procedures, as one shareholder, Consolidated Holdings A/S owned by the Chairman of the Board holds 51.27% of the shares. Therefore, no decision regarding takeover bid can be made without this one shareholder.</p>

2.1.2. The Committee recommends that at least once a year the board of directors take a position on the overall strategy of the company with a view to ensuring value creation in the company.	X		<p>Once a year, at a Board meeting, the Board of Directors and group management discuss and decide on the overall strategic management of the group in order to ensure value creation in the company. The Board of Directors is also involved in the strategy work on an ongoing basis.</p>
2.1.3. The Committee recommends that the board of directors ensure that the company has a capital and share structure ensuring that the strategy and long-term value creation of the company are in the best interest of the shareholders and the company, and that the board of directors presents this in the management commentary on the company's annual report and/or on the company's website.	X		<p>The Board of Directors and the Executive Board evaluates on an ongoing basis whether the group's capital and share structure is in accordance with the group's and the shareholders' interests. The overall objective is to ensure a capital and share structure that supports a long-term economic growth and simultaneously maximizes the return to the group's interested parties by optimizing the ratio between equity and debt.</p> <p>The group's overall strategy is unchanged in relation to earlier years.</p>

Recommendation	The company complies	The company does not comply	The explanation for complying/not complying with the recommendation
			Capital and share structure is presented in the company's Annual Report.
2.1.4. The Committee recommends that the board of directors annually review and approve guidelines for the executive board; this includes establishing requirements for the executive board on timely, accurate and adequate reporting to the board of directors.	X		<p>The Board of Directors has adopted rules of procedure for the Executive Board which describes the overall tasks and responsibilities of the Executive Board, reporting to the Board of Directors and authorities of the Executive Board.</p> <p>The rules of procedure for the Executive Board is reviewed and approved annually.</p>
2.1.5. The Committee recommends that at least once a year the board of directors discuss the composition of the executive board, as well as developments, risks and succession plans.	X		The Board of Directors discusses the composition of the Executive Board, as well as developments, risks and succession plans at least once a year.
2.1.6. The Committee recommends that once a year the board of directors discuss the company's activities to ensure relevant diversity at management levels, including setting specific goals and accounting for its objectives and progress made in achieving the objectives in the management commentary on the company's annual report and/or on the website of the company.	X		<p>The Board of Directors wants equal opportunities for all employees, independent of gender, age, race and religion, in the Company's executive management level and believes that diversity provides business value.</p> <p>In 2013 the Board of Directors adopted targets in order to increase the proportion of women in the Board of Directors and at management level. Recommendation	The company complies	The company does not comply	The explanation for complying/not complying with the recommendation
			<p>In connection with nomination of new Board members, a careful assessment is made of the knowledge and professional experience required to ensure the presence of the necessary competencies in the Board of Directors. At the same time, the Board of Directors is working to ensure that the members supplement each other in the best possible way in terms of background, gender, etc.</p> <p>The Board of Directors also discusses diversity with respect to board composition. Diversity is discussed in connection with assessments of new board candidates. However, this goal must not compromise other recruitment criteria. Currently, there are no female members in the Board of Directors</p> <p>In connection with appointment of executives, a careful assessment is conducted of which knowledge and professional experiences are needed with a view to ensuring the presence of the necessary competences on all executive management levels. It is important that the greatest management talents, irrespective of gender, achieve the highest executive positions.</p> <p>At management level the current gender distribution constitutes 20% women and 80% men. Columbus is convinced that this will change over the coming years, partly due to the efforts in the area and partly due to our transformation to a consultancy.</p> <p>In 2014 the only female Board member left the Board of Directors. In this relation, the Board of Directors assessed that the composition and competencies of the Board of Directors with the remaining four Board members is such that constructive discussions and efficient decision-making process can be ensured during Board meetings. Thus, the female Board member was not replaced in 2014.</p> <p>The target of minimum 40% women in the Board of Directors by the end of 2017 is maintained.</p>

<p><i>2.3. Chairman and vice-chairman of the board of directors</i></p>			
<p>2.3.1. The Committee recommends appointing a vice-chairman of the board of directors who will assume the responsibilities of the chairman in the event of the chairman's absence, and who will also act as effective sparring partner for the chairman.</p>	<p>X</p>		<p>Immediately following the general meeting the Board of Directors convenes and constitutes itself and elects a Deputy Chairman. The role of the Deputy Chairman is in accordance with the recommendations.</p> <p>The Board of Directors has elected Jørgen Cadovius as Deputy Chairman.</p>

Recommendation	The company complies	The company does not comply	The explanation for complying/not complying with the recommendation
<p>2.3.2. The Committee recommends ensuring that, if the board of directors, in exceptional cases, asks the chairman of the board of directors to perform special operating activities for the company, including briefly participating in the day-to-day management, a board resolution to that effect be passed to ensure that the board of directors maintains its independent, overall management and control function. Resolutions on the chairman’s participation in day-to-day management and the expected duration hereof should be published in a company announcement.</p>	X		<p>The Company will follow this recommendation if relevant which it has not yet been.</p>

Information about the members of the Board of Directors is available in the annual report for 2014 as well as on the Company's website.</p> <p>From the Annual Report it appears which Board members are considered independent, and it also appears whether new candidates are considered independent.</p>
<p>3.1.4. The Committee recommends that the company's articles of association stipulate a retirement age for members of the board of directors.</p>		X	<p>Columbus has no age limit for the Board of Directors as the Company believes that what is crucial is each member of the body's commitment, efforts and competencies – not the age of the member.</p>
<p>3.1.5. The Committee recommends that members of the board of directors elected by the general meeting be up for election every year at the annual general meeting.</p>	X		<p>The members of the Board of Directors are elected by the general meeting for one year at the time with the possibility of re-election.</p>

This concerns Jørgen Cadovius and Peter Skov Hansen.</p> <p>A member of the Board of Directors elected by the general meeting, Sven Madsen, is CFO in Consolidated Holdings A/S, which is the main shareholder in the company and is therefore not considered independent. Finally, the member, Ib Kunøe, is not considered as being independent as he is the main shareholder in the company.</p> <p>The Board of Directors is presented in the Annual Report 2014 with the recommended information. This information is also available on the Company's website.</p> <p>Once a year in connection with the publication of the statutory report on corporate governance the Company lists the names of the members who are regarded as independent.</p>

2. Risk management

Columbus' potential to realize the company's strategic and operational objectives are subject to a number of commercial and financial risks. Columbus is constantly working on identifying risks that can negatively impact the company's future growth, activities, financial position and results. To the largest extent possible, Columbus tries to accommodate and limit the risks which the company can affect through its own actions.

Below, some of the risk factors management considers as being of special importance to the Group are described in no specific order.

Columbus attaches the utmost significance to conducting ongoing risk monitoring and management. The overall goal of risk management is to ensure that the company is run with a level of risk, which is in a sensible ratio to the activity level, the nature of the business, and the company's expected earnings and equity.

Strategic and operational risks

All companies in the Columbus Group report financial and operational data to the head office on a monthly basis. The reporting includes comments to the financial and business development. Based on this reporting the Group's financial statements are consolidated and reported to the Group management. As part of this process, monthly business reviews and controlling meetings are held, and control visits to all operational companies in the Group are performed on an ongoing basis in order to ensure that considerable errors in the financial reporting are discouraged, discovered and corrected.

Responsibilities, authorities and procedures relating to essential areas are defined in a Group policy which is approved by the Executive Board. The responsibility for maintaining efficient internal controls and a risk management system in connection with the financial reporting lies with the Executive Board which in cooperation with the Board of Directors evaluate the control system of the Group annually.

Financial risks

Columbus' international activities entail that the company's earnings and equity are affected by a number of financial risks and it is the company's policy to identify and cover these risks pursuant to the guidelines set by the Board of Directors and the Executive Board.

The finance policy sets up guidelines for the Group's currency, investment, financing and credit risks in relation to financial counterparts. The overall goal with risk management is to reduce the sensitivity of earnings to fluctuations in economic trends. The overall guidelines for the management of the financial and commercial risks are outlined by the Board of Directors annually with the basis in a low risk profile so that currency and interest risks only emerge in commercial conditions.

As a result of its operation, investments and financing, the Group is exposed to changes in currency rates and interest level. The parent company controls the financial risks in the Group centrally and coordinates the Group's liquidity management, including provision of capital and placement of excess liquidity.
